

# Avyonce CosMedic Spa

THE NEW WAY TO SPA IN THE HEART OF YALETOWN

There is something almost magical about walking into Avyonce CosMedic Spa. You feel it from the moment you are welcomed inside. You sense it with every soothing step of your service. By the time your Avyonce treatment is complete, you are sure of it – nobody knows how to pamper you and provide truly satisfying results quite like Avyonce CosMedic Spa. You will experience the extraordinary; you will experience the haute couture of spas in the heart of Yaletown.

Avyonce CosMedic Spa has changed the perception of the traditional “Day Spa” to the “New Way to Spa” by delivering a full range of advanced services and products to empower women and men to make the right health and beauty choices. Avyonce offers an integrated anti-aging & relaxation approach that combines the latest advancements in aesthetic medicine and cosmetology. At Avyonce, our Medical Director is dedicated to ensuring the highest standard of care and safety for our spa clients.

One of the spa’s premiere services is the *Beautytek System*. This new technology is Europe’s best kept beauty secret, found in wellness clinics and medical spas in London, Rome, Milan, and Berlin. The Beautytek System for face and body sculpting is a revolutionary non-invasive technology that delivers dramatic results comparable to cosmetic surgery. The advanced computer program transfers microcurrents at a rate of 900 times per second into the specified area to boost cellular rejuvenation and activate colla-

gen production for a firmer, more youthful appearance. With Beautytek, clients can tone, firm and lift problem areas such as the face, neck, breasts, abdomen, arms, thighs and buttocks. Beautytek may also be used to reduce the appearance of cellulite, stretch marks, scars and acne.

Avyonce also offers *laser services* featuring the most advanced laser technology. At Avyonce you can safely and permanently remove unwanted hair for all skin types and colours. *Advanced skin rejuvenation (Laser Genesis)* is another very popular anti-aging procedure offered. Laser Genesis addresses textural changes associated with aging by stimulating collagen growth and realignment so that pore size is reduced and fine lines are diminished.

*Skin rejuvenation with IPL (Intelligent Pulsed Light)* is another anti-aging procedure offered. This technique addresses pigmentation, including sun spots, freckles, age spots and rosacea.

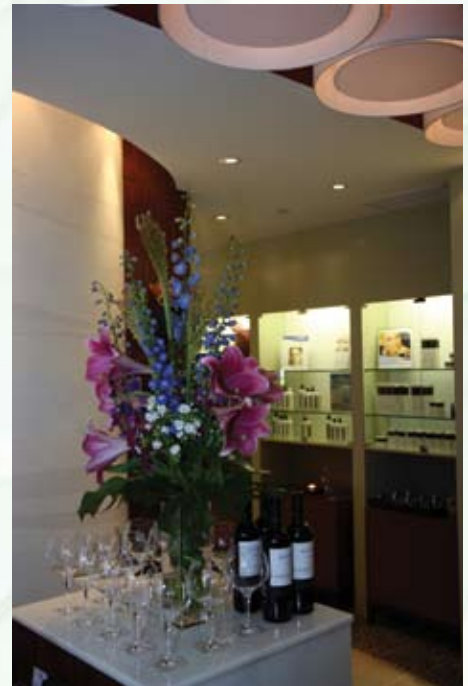

*Vein Therapy with Laser* is a popular procedure used to remove unsightly veins and other unwanted skin imperfections. This non-invasive laser treatment is a safe and effective technique for leg veins, facial and spider veins, rosacea and birthmarks.

At Avyonce, our entire staff of cosmetic estheticians, medical professionals and registered massage therapists are dedicated to achieving your desired results. Following a consultation, customized treatment programs are designed to meet the needs of each client.

Avyonce is passionate about making their clients look and feel their best and our menu of services is designed to promote beauty “inside and out”. An Avyonce CosMedic Spa experience might be the perfect way to celebrate a special occasion, or to enjoy throughout the year as part of a regular beauty regime.

*Avyonce CosMedic Spa held its grand opening event August 24th and is conveniently located at Suite 220-179 Davie St. (above Urban Fare in the Aquarius Professional Centre)*

*For more information or to book your consultation call 604.669.7889 or visit their website at [www.avyoncespa.com](http://www.avyoncespa.com)*
